

Autumn Leaves

1. vers:

The falling leaves drift by my window.
The autumn leaves of red and gold.
I see your lips, the summer kisses,
the sunburned hands, I used to hold.

Omkvæd:

Since you went away
the days grow long,
and soon I'll hear
old winters song.
But I miss you most of all my darling,
when autumn leaves starts to fall

2. vers:

Wednesday it is - restless my soul
longing for singing - clear out my mind
evening has come - I close the door
all of my worries - I leave behind

Omkvæd:

Then we sing as one
Korillaz way
we sing for fun
and Rasmus play
if it 's rhythm, joy good sound you seek
come sing with us - every week

*Sing i sidste linie trækkes ligesom Autum plejer
at blive det, dog skal with med.*

*Altså normalt: au au au tum leaves
nu: si en ing with us*
